# CONVERSATION FLOW

**System:** Have you been to college?

**User:** I'm just a senior in high school.

**System:** College is a good investment if you want to pursue certain careers. However, it may not be for everyone. Do you want to go to college?

**User:** I probably should.

**System:** That's great! About 70% of seniors go to college after high school. Do you have an idea of where you want to apply?

**User:** I'm not really sure.

**System:** Well, there are a lot of options, so I can understand why you don't know. Maybe I can help. What are some things you liked about your high school?

**User:** I really enjoyed the sports program. I played varsity lacrosse.

**System:** It's great that you like <sports>! How do you feel about moving away from home?

**User:** I'm scared about being apart from my family. / I don't want to live far from home.

**System:** It's okay to feel <scared>. Many students decide to go to a school that's close to home. What state are you from? Maybe I can help you out.

**User:** I am from Florida.

**System:** I think you would be happier at sports-oriented, in-state schools. Some schools in <Florida> that fit that description include University of Florida, Florida State University, and University of Miami.

**User:** Thanks, I'll look into those!

# NOVELTY

## EMOTIONAL CONNECTION

Taking Values into  
Consideration

## NAVIGATING EXPERIENCES

Campus Life  
Majors & Minors  
Not "what" but "how"

## BEYOND THE FIRST YEAR

Upperclassman Experience  
Success after Graduation

# GOALS

“I feel more emotionally comfortable and less anxious about the college search process.”

“I have a better understanding of what types of majors may be more suitable for me.”

# LIMITATIONS

## U.S. only schools

Datasets specific to the U.S.

## Conversation length

Boredom vs. Useful  
Information

## Predicting all cases

Breadth vs. Depth

## Rare activities

"Underwater basket weaving"  
would be hard to predict.

## Anonymity

Preserving user anonymity  
prevents specific  
suggestions
